

Introducing ... Myo-ther Advantage Deep Tissue Gel

After two years of Research and Development, Paradel Products has perfected another massage lubricant, adding to our current Professional line of Myo-ther Products. Over these two years, Paradel has spent a lot of time canvassing Massage Therapists to determine which properties are critical for an effective Deep Tissue lubricant.

Myo-ther Advantage Deep Tissue Gel is an ideal solution for Deep Tissue work, complete with the necessary properties described by Therapists.

- Advantage provides enough glide for effleurage and enough grip for deep tissue work.
- Advantage is hypo-allergenic for both clients and practitioners with sensitive skin.
- Advantage contains no added fragrances, making it an excellent base for the addition of essential oils which allow you to customize the gel to your own preference.
- Advantage is water-dispersible so it washes out completely leaving no oil residues behind to stain your sheets and leave them smelling rancid.
- It provides exceptional coverage for the massage, minimizing re-application, and wipes off the skin easily.

Myo-ther Advantage has an extra thick and creamy formula that maintains its luxurious texture throughout a massage. Your client's skin is left feeling silky smooth, never oily or sticky.

Myo-ther Advantage Deep Tissue Gel is mineral oil based, just like our original Massage Lotion.

The positive attributes found in a mineral oil based product guided our development of the new Advantage Gel. Mineral oil is colourless, odourless, and hypo-allergenic.

It does not support microbial or yeast growth, and requires minimal amounts of preservatives unlike nut oil based products. The large molecular structure of mineral oil naturally retards absorption through the skin, allowing the lubricant to remain on the surface of the skin, reducing re-application.

Paradel Products is continually working to develop new products in order to meet the need of Massage Therapists. On going R & D efforts are concentrating

on developing a Natural Oil lubricant in a water-based emulsion that will wash thoroughly out of sheets, leave no residues, and provide all of the other same great characteristics of our current products.

The Myo-ther Product Line includes:

- Professional Massage Lotion
- Genie Plus Table Cleaner
- N-zyme Laundry Additive
- USP grade Epsom Salts
- Simply Botanical Soothing Skin Hand Soap
- IC-Gel waterless sanitizer
- Advantage Deep Tissue Gel

Paradel Products was started by a Registered Massage Therapist in Ontario in 1992 and strives to meet the needs of Massage Therapists and other Health Practitioners throughout Canada and the US.
